Everyday low prices and free delivery on eligible allamericanclocks.com: Kris Tualla. Are you scared to start something because you don't know what to do and fear failure? You Don't Know What You Don't Know. The problem is you don't know what you don't know. I spent a number of years in the military and we used the saying, "You don't know what you don't know" always to remind us that there were things about the situation which we didn't know. Really though, this has a much deeper meaning. One meaning is just expressing that we have limitations. If you don't know something, that's just tough, you don't know it and you have to live with that. You don't have information if you don't have that information. The other meaning is that not only are there gaps in our knowledge, but often we don't even know what the gaps in our knowledge are.

Now you need to make that seed grow into a healthy plant (aka your book). I'd like to propose a formula of sorts to you. Your Idea + Inspiration + Support = Your Book. You might want to write a memoir, non-fiction book or even a novel. Whatever it is, you're all in, and you know what your goal is.

What a daunting task. How do you know what's going to make you happy for the rest of your life, especially if you're only 16 and you're still getting a thrill out of watching "The Breakfast Club?" You can't know. You can't know what's going to make you happy even five years from now. Aug 05, · I know that many people do not support their songs getting nightcored or edited without permission.
