The little bear is resisting bedtime, and he and his mommy go for a walk to see the other baby animals' "getting ready for bed" traditions -- until he is finally all tired out. There is so much love and warmth expressed between the bear and her cub, and the illustrations are soft and soothing (with nice colors!).Reviews: 7.

Little Bear and Mother Bear take one last walk to see the other animals getting ready for bed. Will this make Little Bear sleepy enough to snuggle down for the night?With cuddly illustrations, this wonderful bedtime book is ideal for any child who isn't quite ready to go to sleep. Bedtime for Little Bears by David Bedford, Caroline Pedler Little Bear and his mother had spent a long, sunny day exploring in the snow. "It's getting late," said Mother Bear.

Mother bear stretched up tall to find out."Look there," she said."It's Little Owl!" said Little Bear."Little Owl likes to stretch her wings before bedtime, and feel the whisper of the soft night breeze in her feathers," said Mother Bear. Over-stimulated Little Bear needs another bit of playful nudging to coax him home for bedtime. One last walk with Mother Bear brings on explanations for how each of his neighbors settles down to sleep.
