Feminism definition is - the theory of the political, economic, and social equality of the sexes. the theory of the political, economic, and social equality of the sexes; organized activity on behalf of women's rights and interests. atomist theory, atomistic theory, atomic theory, atomism - (chemistry) any theory in which all matter is composed of tiny discrete finite indivisible indestructible particles; "the ancient Greek philosophers Democritus and Epicurus held atomic theories of the universe". feminist theory a type of ethical theory whose core assumptions are that women's experiences have not been taken as seriously as men's experiences and that there is subordination of women, which must end. A central theme is that women's reality is a social construction and not a biological determination. Some perceived the label feminist as exclusionary, misandrist, or anachronistic. However, the popularity of the word feminist may be on the rise again, as evidenced by its more open embrace by pop culture celebrities. noun. the doctrine advocating social, political, and all other rights of women equal to those of men. (sometimes initial capital letter) an organized movement for the attainment of such rights for allamericanclocks.com Use. feminine character.
